Critical Information Summary

Toll-Free: 800/888/877/866/855/844/833 & International Inbound Numbers

Service Information

800/888/877/866/855/844/833 (800 number services) numbers are non-geographic business numbers that can be dialled by the caller at no charge for the caller. International numbers are virtual numbers in various geographical locations that are routed to your phone system via the internet and allow callers to dial the number within their geographical area. Calls are then directed using our Hosted PBX, following the call flow you configure. Incoming calls can be answered on a VoIP-compatible device (requires Hosted PBX or SIP Trunk service) using your internet connection or diverted to an external service number.

Included features

A full feature set is included; IVR menus, call queues, ring groups, voicemail to email, time-based routing and call recording to email and more. We constantly expand our feature set, view the complete feature list here. Customers have access to an online portal to configure their hosted PBX service call flow and check usage information.

Limitations

- 800 numbers cannot be dialled from outside of the United States. We recommend using a geographical number for your overseas customers.
- 800 numbers cannot be used as caller IDs within the United States.
- 800 numbers are not SMS enabled.
- 900 and other premium rate numbers can not be configured as an external answering point for 800 numbers.
- Numbers typically come with a limit of 2 channels per number, though this can vary. If you need more channels, additional fees will apply, contact support for pricing.
- 800 and international numbers are not available in trial mode. See all trial limitations here.
- To send or receive SMS messages to or from the United States, you'll need a registered messaging campaign. Contact our support team to request the registration form.

International destinations

Calls are billed in 60-second increments. You can check the latest call rates and any free destinations for each call plan in the customer portal under billing > rates search. To protect against fraud, we block certain high-risk international destinations. If you need access to a blocked destination, please contact our support team.

Billing information

Services are supplied on a prepaid basis by default. New monthly subscription services are charged to the account balance on a pro-rata basis from the service start date till the end of the month. After this, your monthly subscription is charged at the start of each month. Call and SMS charges that are not included in or unlimited are charged to the account balance at the end of each call or after the SMS is sent, making it possible for the account balance to go negative or below the assigned credit limit. Services unsubscribed during a billing period are non-refundable. We recommend setting up automatic payments via our customer portal. Pre-paid billing requires you to maintain a positive account balance at all times, the service will be restricted automatically if you fail to maintain a positive account balance. Post-paid billing is available on request at the discretion of VoIPcloud. We invoice you at the start of each month and provide 14-day payment terms. A security deposit equal to one month's usage is required;

if subscriptions and call charges increase over time VoIPcloud may request an increased security deposit to extend your post-paid billing credit limit. Non-payment and service suspension charges apply to post-paid billing accounts only. If your bill is overdue for over 7 days your account will be charged a $15.00 late payment fee. If your bill is overdue for over 30 days your account will be suspended and if your account is restored a $50.00 suspension fee upon restoration.
